

## **REMEMBERING BILL**

Willie Maloney was a hero of mine since I was a Buck SGT I met him while working at the CSMS at WO when he would bring vehicles in for maint...he was a mentor to me on the Armor Committee as a 2LT (who thought he had all the answers). I knew him throughout my career and respected him greatly...he was great soldier and a good friend. Barry is as close a friend as I had in the Guard. I will miss Willie Maloney, he was truly one of a kid....we even had heart surgery on the same floor at Morristown in June of 03, I was flat on my back and he was strolling around after the surgery as if it were a hangnail

God Bless Bill Maloney
